INTERNSHIPS

Android Developer Intern, NIPI NGO

2nd June-25th June 2025

- Developed a Jetpack Compose Android app for ASHA workers to report child visits.
- Created bilingual forms with age-based visit reminders.
- Enabled offline saving with auto-sync on reconnection.
- GitHub: github.com/Abhineetraj07/ASHA_HBYC_App

PROJECTS

Farming Management System

- Build a Streamlit+MySQL web app for farming operations with role based dashboards.
- Implemented CRUD operations, crop search, checkout, and real-time inventory & sales tracking.
- GitHub: <https://github.com/Kuravarsha/FarmLand>

Recipe Finder Web Finder

- Developed a responsive web app using HTML, Tailwind CSS, and JavaScript.
- Added dynamic search, dark/light mode toggle, and ingredient-based filters.
- GitHub: github.com/Abhineetraj07/Recipe-finder

Technical SKILLS

- Programming Languages:** C, Python, HTML, CSS, C++, MYSQL, JavaScript
- Software and Software Development Platforms:** MATLAB , Git
- Framework & Platforms :** Android Studio , Firebase Firestore , Jetpack Compose

CERTIFICATION AND COURSES

- Beginning C++ Programming – Udemy
- Mastering DSA using C and C++–Udemy
- When Big Data Meets AI – Deakin University Masterclass
- Database Management Systems – NPTEL
- MATLAB Onramp – MathWorks
- Deep Learning Onramp – MathWorks
- Machine Learning Onramp – MathWorks
